

CBTL—CombiTriangleLamp in full, is the replacement to the Combi tower, The sleek geometric design allows for 360 degrees of viewing where mounted on a desk or on a wall.

CBTL is designed for presenters to give control over the length of time they talk ,in a very easy format of a traffic light. Green—start and continue to talk, Amber—get ready to stop, Red-Stop!

This display will work with the Filibuster and Countdown Touch controllers (it will work with the older Indicator2 controllers as well). The display is daylight viewable for easy viewing in different environments.

Flexible design for mounting and storage.
