

CD Splitter

CD Splitter has been designed to extend the distance between the Countdown controller and their numeric displays and to multiply the number of displays that can be attached.

This 1x4 active Splitter allows more numeric displays from one output of the controller to be driven and can increase the distance when used mid-point. This small distribution unit re-drives the RS232 and 12V needed for the numeric displays.

Main Features

- ✓ 4 outputs
- ✓ Active splitter
- ✓ Greater cable distance

Time Multiplied by 4

3 Year Limited Factory Warranty

Specifications:

Signals:

RS232 and 12V DC in and out

Control Switches:

None
